Georgia Wellness Group Clarifies Recent Media Claims, Reaffirms Commitment to Community Care

GWINNETT COUNTY, GA — Georgia Wellness Group stands firm in its mission to serve women and families in Gwinnett County with integrity, compassion, and high-quality services. In light of recent news reports and public commentary, Georgia Wellness welcomes the opportunity to clarify the nature of its work.

Georgia Wellness remains committed to upholding the highest standards of medical support, patient education, and community empowerment, and continues to operate with the trust and confidence of the Gwinnett County community. The women and families who rely on us deserve the compassionate, quality healthcare we're proud to provide.

Georgia Wellness is an independent, locally operated clinic no longer affiliated with The Obria Group on an organizational, legal, or operational level. Any actions or opinions associated with former Obria leadership do not have a bearing on the mission, services, or operations of Georgia Wellness.

All medical services are provided by credentialed medical professionals. The clinic operates under the license and supervision of a Board-Certified OB/GYN Medical Director. All applicable regulations and standards are met to ensure safe, ethical, and professional care.

In accordance with Georgia's Women's Right to Know Act (WRTK), the clinic provides all legally required information both verbally and in writing to patients seeking pregnancy verification. All patient interactions are guided by a commitment to dignity, informed decision-making, and respectful care.

Georgia Wellness provides routine and high-risk prenatal care (the only provider in Gwinnett County offering both at no or low cost), STI testing and treatment, gynecological services, maternal mental and behavioral health care, and post-pregnancy support. Georgia Wellness understands the importance and timeliness of providing results for women. Immediate pregnancy verification results are shared during the same appointment. All other lab results are shared with patients promptly upon receipt from our external laboratory partner.

As The Georgia Wellness Group continues to evaluate the needs of women and families of Gwinnett County, they look forward to providing a maternity home for pregnant moms and their babies, expanding maternal mental and behavior health, and offering pediatric care to the underserved of Gwinnett.

Georgia Wellness Group continues to meet the real needs of real people across Gwinnett County. As a trusted healthcare resource, the organization remains committed to excellence, transparency, and medically sound care for every patient it serves.
